

DJ Controllers

CMD DV-1

DVS-Based MIDI Module with Dual Effects,
Deck Focus and Transport Control

- Full control of up to 4 software effects decks
- Deckadance LE DJ software voucher from Image-Line included
- Compatible with popular DJ software including Native Instruments Traktor*, Serato Scratch Live*, Ableton Live* and any other MIDI-compatible programs
- Access deck focus, hotcues, looping, instant doubles and much more
- MIDI-reactive controls take your eyes off the computer screen
- USB bus-powered
- Class-compliant MIDI protocol enables plug-and-play with any MIDI software
- Designed to lock together with other BEHRINGER CMD controllers for full expandability
- Slim tabletop design for ultimate portability
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

The CMD DV-1 works well as a standalone controller for a wide range of DJ and production software including Native Instruments Traktor*, Serato Scratch Live*, Ableton Live* and any other MIDI-compatible programs. Whether you're a DJ, producer, recording engineer, or hobbyist, the CMD DV-1 makes getting your hands into your software easy and affordable.

Class-compliant MIDI protocol enables right out-of-the-box, plug-and-play operation with any MIDI software – no additional drivers required. Big enough to be taken seriously, but small enough to fit easily into a backpack or messenger bag, the CMD DV-1's modular design provides seamless integration with any of our other CMD controllers.

DVS-Based MIDI Module with Dual Effects, Deck Focus and Transport Control

The DV-1 is designed to work alongside modern digital vinyl systems like Serato ScratchLive and Native Instrument's Traktor Scratch Pro 2. Because these systems rely on more traditional devices (like turntables or CD players) for much of their functionality, modern DVS DJs often miss out on many of the additional features these great programs offer. Enter the DV-1, a controller designed to give you the freedom to use both digital vinyl and traditional gear, while giving you access to advanced software features such as looping, hotcues, effects, samples, and much more. As a single controller, the DV-1 can be used to access advanced features for up to four software decks. Or if you prefer discreet controls, multiple DV-1 modules can be used simultaneously.

To get you up and running right out-of-the-box, we've included a free download voucher for Image-Line's Deckadance 2 LE DJ software, which adds tremendous versatility and seamlessly integrates with a wide range of DAW applications.

Whether used in standalone mode or as part of a custom CMD setup, the DJ CONTROLLER CMD DV-1 elevates DJ production and working with external decks and turntables to an entirely new level, providing seamless software navigation and unparalleled control – right at your fingertips. Add to this a super-slick modular design that lets you grow your workstation to include exactly the control elements your art requires. The DV-1 is the ideal size to sit right next to your mixer or turntable, and the rugged build quality and long-life tactile switches mean you'll have this workhorse for a long, long time. Check out the amazing DJ CONTROLLER CMD DV-1 at your [BEHRINGER](#) dealer, or order yours online today! The possibilities are endless.
