

MICROPOWER PS400

Ultra-Compact Phantom Power Supply

- Universal phantom power supply for any condenser microphone
- Selectable +12 / +48 V power supply
- Ultra-low noise audio performance
- DC 12 V adapter included
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

Studio-grade condenser microphones really sound great for capturing vocals, drums and other acoustic instruments, but what if your mixer doesn't provide the phantom power you need to make them work their magic! The ultra-compact MICROPOWER PS400 can solve all of that, and it's small enough to fit in your pocket – with a price tag to match!

Portable Power

The PS400 features XLR Thru jacks and provides superb noise-free operation. Just connect your condenser mic to the Mic Input and send a line from the Mic Thru to your mixer. You can toggle between +12 V and +48 V power, depending on the operating voltage your mic prefers. This handy, little audio solution comes with its own 12 V DC power supply and an LED, to let you know when it's own on.

*Warranty details can be found at music-group.com.

MICROPOWER PS400

Ultra-Compact Phantom Power Supply

Small and Superb

With its small size and even smaller price tag, the MICROPOWER PS400 is the perfect solution for on-the-go +12 or +48 V phantom power. See how it complements your favorite mic and mixer at your nearest [BEHRINGER](#) dealer, or get yours online today!

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own [MUSIC Group](#) factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [3-Year Warranty](#) program.
