X-TOUCH EXTENDER

X-TOUCH EXTENDER with 8 Touch-Sensitive Motor Faders, LCD Scribble Strips, USB Hub and Ethernet/USB Interfaces

- Universal X-TOUCH EXTENDER for Studio and Live applications
- Supports Mackie Control*, HUI* and Standard MIDI Control protocol for seamless integration with every compatible music production software
- Multiple X-TOUCH and EXTENDER units can be combined to emulate a large-scale control surface
- 8 fully automated and touch-sensitive 100 mm motorized faders
- 8 dynamic LCD Scribble Strips for instant overview of track names and parameters
- 8 rotary controls with LED-collars for on-the-fly adjustments of your favorite parameters
- Built-in USB MIDI interface for direct connection to Mac* or PC computers
- 2-port powered multi-TT USB hub for connecting additional controllers
- Ethernet interface for RTP (Real-Time Protocol) MIDI remote control
- "Planet Earth" switching power supply for maximum flexibility (100 - 240 V~) and low power consumption for energy saving
- 3-Year Warranty Program*
- Designed and engineered in Germany

Love your X-TOUCH Universal Control Surface, but want even more control over your music production? The amazing X-TOUCH EXTENDER is the ideal and cost-effective way to grow your current setup, and can even be used as a standalone controller for remote recording to your laptop.

From the 8 touch-sensitive, motorized faders and the 8 dynamic LCD scribble strips, to the 8 rotary encoders, 32 illuminated buttons, and 8-segment LED meters per channel, the X-TOUCH EXTENDER transforms what's on your DAW's screen into one ultra-compatible, feature-packed surface for precision control and a bird's eye view of critical mix parameters. Connectivity is simple using traditional USB connections, plus it also has an Ethernet interface for use with DAWs that support RTP (Real-Time Protocol) MIDI remote control.

Room to Grow

As your production needs grow, you can combine multiple X-TOUCH and EXTENDER units to emulate a large-scale control surface – all you need are a few standard USB cables.

Universally Yours

When it comes to integration, the X-TOUCH EXTENDER has you covered with the most widely used protocols in the industry. With included support for HUI* and Mackie Control*, you can be sure it will work seamlessly with all compatible music production software, allowing you to focus on what counts... the music.

Faders that Dance with Your Music

Your music is the embodiment of your imagination and creativity. Your controller should be equally inspired and dynamic in its response to your creation. That's why the X-TOUCH EXTENDER features 8 fully automated and touch-sensitive 100 mm motorized faders. Every move or automation you write can be seen in the movements of each fader in real time, perfectly synced with your DAW.

LCD Scribble Strips - Instant Readout

LCD scribble strips grace the top of each channel fader, providing an instant visual readout of which track and parameter you are adjusting – totally eliminating old school tape-and-marker labelling.

X-TOUCH EXTENDER

X-TOUCH EXTENDER with 8 Touch-Sensitive Motor Faders, LCD Scribble Strips, USB Hub and Ethernet/USB Interfaces

A Symphony of Lights

With 4 dedicated illuminated buttons, 8 rotary controls with LED collars and 8-segment LED meters per channel, the X-TOUCH EXTENDER is a feast for the eyes as well as the hands. At-a-glance you can see in brilliant color if a channel is muted or soloed and how hot the level is pumping as you make changes during recording or mixing. Arm multiple tracks or adjust panning at the same time and marvel at how you ever relied on a mouse to do a controller's job.

The Feel

Navigation is a breeze with the abundant features on the X-TOUCH EXTENDER's intuitive surface. Race between faders, push real illuminated buttons, turn actual knobs – X-TOUCH EXTENDER brings your on-screen DAW controls to life!

Connect, Control, Expand

With class-compliant USB functionality, the X-TOUCH EXTENDER is instantly recognizable by Mac and Windows PCs. Its USB MIDI port allows you to connect and communicate with an external device. The powered multi-TT USB hub provides connectivity for 2 more controllers so it can grow with your career. And the power and control can expand further via the integrated Ethernet interface for DAWs that support RTP MIDI. Isn't that awesome?

Compose. Record. Mix. Share.

Tracktion is one of the world's fastest and easiest Digital Audio Workstations (DAW) for composing, recording, editing, mixing and sharing your music with the world. Featuring a single-screen interface, and pushing the envelope in design elegance, Tracktion brings together outstanding Pro DAW features, such as dynamic automation, unlimited track count, MIDI recording and support for VST and AU plug-ins. This powerful music production software gives you all the tools of an entire professional-grade recording studio. Learning a DAW has never been easier, thanks to their vast and readily available library of resources.

As our way of saying "Thank You", when you register your X-TOUCH EXTENDER at behringer.com, we'll reward you with a complimentary download code for the full version of Tracktion. Recording and editing couldn't be easier. To learn more, visit tracktion.com/support/videos.

Share the Love. Visit tracktion.com for more.

The Magic TOUCH

The X-TOUCH EXTENDER provides all the tools you need to expand your current music production control, so you always make the most of your recording and mixing sessions. Take full control of your DAW by adding more motorized faders, rotary encoders with LED collars and illuminated key function buttons.

See and feel the difference the X-TOUCH EXTENDER can make in your workflow at a **BEHRINGER** dealer today... or get yours online. Feel the music; feel the magic – X-TOUCH.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own **MUSIC Group** factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous **3-Year Warranty** program.
